CADENCE

PRODUCT SPECIFICATIONS

Experience the untamed beauty of hair-on-hide leather, where each hide is a one-of-a-kind expression of nature's artistry. Rich in texture and organic character, these luxurious hides bring warmth, depth, and a bold sense of individuality to any interior. Perfect for statement pieces that celebrate authenticity and craftsmanship.

- Composition: 100% Leather
- Average Hide: 55-60 Sq Ft
- Minimum Order: Half hide
- Finish: Aniline
- Average Thickness: 1.1-1.3 mm
- Origin: Italy

**CFAs and photos of hides are available upon request.*
**Full hides are available only in natural length hair. For natural length hides, we cannot guarantee the same hair length on a single hide and from one hide to another. Hair length varies seasonally. Direction of hair can vary within a hide.*
**Half hides are available in natural or shaved length hair.*
**Natural markings such as insect bites, scar and scratches, as well and wrinkles and stretch marks can be present in some leathers, and are not considered flaws.*
**Hides dyed with red pigment may show some natural variation or gradual color change over time. This is due to the inherent sensitivity of red pigments to UV light and abrasion.*
**White hair-on hides have no pigment, and therefore, may display subtle markings, shading, or slight discolorations.*

CLEANING & CARE INSTRUCTIONS

Regular Care: Vacuum gently with a brush attachment to remove dust and debris. Always follow the direction of the hair. Shake out or lightly brush with a soft-bristle brush to maintain a smooth appearance.
Spot Cleaning: For liquid spills, blot immediately with a clean, dry cloth. Do not rub. If needed, use a slightly damp cloth with mild soap and water. For dry stains (mud, food, etc.), allow to dry, then brush away with a soft-bristle brush.
Professional Cleaning: For large or stubborn stains, consult a professional leather or rug cleaner experienced with hair-on hides.
**Do not saturate the hide with water or cleaning solution.*
**Do not use harsh chemicals, solvents, or steam cleaners.*
**Do not expose to direct sunlight for extended periods, as this may cause fading (especially in red or red-based colors).*
