- Country of Origin: Italy
- European Tariff Code: 52093200
- USA Tariff Code: 520932002
- World Tariff Code: 520932000

KNIT BACKING

Knit backing is not recommended for corduroy. Any additional finishes may damage the pile on the face of the cloth. Reinforce upholstery seams. An ample seam allowance and overlock stitching / serging is recommended.

CORDUROY HANDLING

Clients and their workrooms need to take caution when handling corduroys before upholstering as any wrong handling can damage the corduroy pile.

- Always keep the corduroy roll untouched and in the suspended shipping box until use.
- Do not stand the shipping box on its end. The box should rest horizontally.
- Do not handle the fabric portion of the roll as this may crush the corduroy pile. Two people should lift the roll out of the suspended corduroy box holding the ends of the tube.
- The corduroy roll should not sit on a work surface for an extended period of time as this may leave the bar mark across the width of the fabric from the weight and the pressure of the roll.
- While corduroy is not in use it should be stored suspended in the corduroy box.

CLEANING & CARE INSTRUCTIONS

Professional dry clean, delicate treatment. Do not bleach. Do not tumble dry. Do not steam. Iron at low temperature with a protective cloth between the iron and the fabric. To quickly clean up spills, blot with a clean cloth, do not rub. To remove dust or light dirt, gently brush or vacuum with an upholstery attachment.

FR

This fabric requires an FR treatment or upholstery with an FR barrier cloth to pass California Technical Bulletin 117 – 2013 and British Cigarette & Match BS 5852

DRAPERY

For best results, hang drapery before hemming to allow the fabric to adjust to the climate of the room.

END USE

Upholstery, drapery, soft goods and accessories.
