Classic Mohairs

Wool Mohair Suiting

Holland & Sherry's Classic Mohairs collection includes a selection of superfine wool and mohair blended qualities as well as a comprehensive collection of plains.

Fabric # 2821016

Mohair fabrics feel dry, crisp and smooth, are cool to wear and are ideal for humid environments. They tailor well giving a smart sculptured look that's perfect for a stylish business appearance in hot climates.

Some benefits of mohair blended fabrics:

- Mohair is the clip shorn from an Angora goat and is renowned for its glossy sheen.
- It is very receptive to dye which results in richer more vibrant colours.
- It produces a fabric with intense lustre and sheen.
- It produces a fabric that will hold and retain its shape.
- It produces a cloth that is durable and comfortable to wear.
- It produces a cloth that is easy to tailor, mould and manipulate into some of the finest garments ever created.

Fabric # 2821003

*The wicking properties of mohair allow
the body to stay cool and dry making it an
excellent performance fabric.*
