

DI SPIRITO (LE5548-LE5562)

Produced on select European hides, Di Spirito is a semi-aniline, vintage nubuck. After the aniline dyeing process, fine resins and waxes are applied to the surface of the hide, which is then hand-sanded by skilled craftsmen to create a “worn out” look. The final step in the process is a water repellent coating on the surface of the hide. The combination of artisanal processes and treatments is intended to enhance the natural beauty of this luxurious leather.

- Average Hide Size: 50-55 sq ft
- Raw Material: European cowhide
- Leather Type: Semi-Aniline
- Tannage: Chrome tanning
- Dyeing: Aniline through dyeing
- Average thickness: 1.0-1.2 mm
- Lead Time: 1 week, if confirmed in stock
- Stocked In: U.S.A

CLEANING & CARE INSTRUCTIONS

Avoid direct sunlight as anilines are subject to fading. For spills, blot softly with a clean cloth and let dry. For regular maintenance, dust with a clean dry cloth and or vacuum as needed.
