

HAVEN GRAIN (LE5540-LE5547)

Produced on the finest European hides, Haven Grain is a natural grain nubuck with a fine nap that is incredibly soft and luxurious to the touch. During the tanning process, the application of rich fats and oils creates a minimal degree of protection, while retaining the desired feel and softness. Typically used in high end residential environments, Haven Grain is the epitome of luxe.

- Average hide size: 50-55 square feet
- Leather type: Enhanced grain
- Raw material: European bull hide
- Tannage: Chrome tanning
- Dyeing: Aniline through dyeing
- Finish: Aniline
- Average thickness: 1.2-1.4mm
- Lead time: 1 week, if in stock

CLEANING & CARE INSTRUCTIONS

Do not apply water. Dust regularly with a soft and dry cloth. Avoid direct sunlight as anilines are subject to fading.
