## DOUG & GENE MEYER SYMBOLIST

Inspired by the late 19th century art movement

The Symbolist collection is masterfully dyed and hand-woven in Nepal using only the finest of fibers and generations of perfected weaving techniques. Inspired by the late 19th century art movement called Symbolism, this collection uses mythological and dream imagery in painting and writing to achieve a link between the romantics and the surrealists. Combining fibers of Himalayan wool, Chinese silk, mohair, metallic and natural allo, the collection defines our masteries in creating a completely bespoke, heirloom product with a rich variety of texture and design. *All rugs available in custom color and content.*
