

ARDEN (LE5065-LE5068, LE5070, LE5186)

The Arden Collection is leather in its purest form. Arden is a smooth, full grain leather characterized by its silky hand. While this product will patina over time, its delicate and embracing feel will remain, making this leather even more precious and beautiful as it is used. Arden is aniline through-dyed, and there is no added surface protection – this leather should be reserved for residential use and particularly for clients who understand and appreciate the natural idiosyncrasies of leather. Neck & rib wrinkles, a visible spine line, small nicks in the grain and color variations are to be expected and distinguish this naked leather from both pigmented leathers and faux leathers.

** Please note that there will be inherent variation of color, tone and surface texture within a hide and from hide to hide even within the same dye lot.*

- Average hide size: 50-55 square feet
- Minimum: Available in half-hide increments
- European bull hides
- Leather type: Full grain
- Tannage: Chrome tanning
- Dyeing: Aniline through dyeing
- Finish: Aniline
- Average thickness: 1.0 – 1.2 mm
- Lead Time: 1 week, if in stock

CLEANING & CARE INSTRUCTIONS

Spots can be cleaned by blotting immediately with a clean absorbent cloth or sponge. For tougher stains, a drop of mild, neutral pH soap on a damp cloth may remove dirt. Do not rub. Use a circular motion working toward the center of the stain. Avoid any direct exposure to the sun. Keep the leather away from direct heat. Dust regularly with a soft and dry cloth.

DURABILITY NOTES

- Tear strength: EN ISO 3377-1 / > 20 N
- Fastness to light: EN ISO 105-B02 (Met. 3) / ≥ 2/3 Blue Scale
- Artificial solution rub fastness, 20 cycles: EN ISO 11640 / EN ISO 11641 / ≥ 2 Grey Scale
- Wet rub fastness, 20 cycles: EN ISO 11640 / Grey Scale
- Dry rub fastness, 50 cycles: EN ISO 11640 / Grey Scale
- Flammability: Cal TB117, NFPA 260/UFAC
- Stocked in: USA
