

MÉLANGE WOOL BOUCLÉ BRUNSWICK

Holland & Sherry's wool bouclé cloth features a custom yarn that entwines two mélangé colors in a looping novelty effect. The result is a soft, cozy and playful fabric reminiscent of a sheep's natural fleece. Eight new colors join the beautiful array of neutrals and mid-tone shades in the palette. This multi-purpose fabric is suitable for a variety of residential applications including upholstery, accessories and soft goods.
