GOLD WEST (LE5173-LE5191)

PRODUCT SPECIFICATIONS

Golden West is a throwback collection of pre-distressed leathers made to look worn in and rustic. The pigmentation is applied by hand, which creates a subtle shading effect throughout the hide. The hides are tumbled to create dynamic veining on the surface – this adds a casual, rustic element to the leather. Finally, each hide is sealed with a wax finish to preserve the look for decades to come. These leathers are water and stain resistant. *Due to the handmade nature of the product, we request that clients submit control samples for production, and no CFAs will be available post-production.

- Average Hide Size: 45 SF
- Minimum: Full Hide
- Raw Material: South American Cow Hides
- Leather Type: Enhanced Grain
- Tannage: Chromium Tanning
- Dyeing: Aniline through dying
- Finish: Semi Aniline with Hand Rubbed Finish

- Lead Time: 6-8 weeks from receipt of payment.

DURABILITY

- Flammability: Please consult your salesperson for your client's particular requirement as additional treatments and/or up-charges may apply

CLEANING & CARE INSTRUCTIONS

Occasionally dust with a soft, dry cloth. Blot spills immediately — never rub. If cleaning is required, use a pH-balanced cleaner made for semi-aniline or pigmented leather, applied with a soft cloth in gentle circular motions. Never use alcohol, bleach, acetone, baby wipes, or household cleaners, as these strip the protective topcoat. For deep stains, ink, or significant discoloration, consult a professional leather cleaner.
