ALFRESCO (LE55O6-LE5517)

PRODUCT SPECIFICATIONS

Our Outdoor Leather collections are game-changers in the performance upholstery category. Equally suited for indoor or outdoor application, these real leather hides are tanned and then through-dyed with state-of-the-art solutions that make the hides water and mildew resistant from the inside out. Cool to the touch and resistant to all natural elements (rain, salt, UV exposure), these hides are great for pool side application, garden lounges, spas, and everything in between.

- Light Fastness: ISO 105-B02: Blue Scale ≥ 6
- Flame Resistance: NFPA 260: Class 1; CAL TB117-2013

CLEANING & CARE INSTRUCTIONS

Dust with a soft dry cloth for normal cleaning. Stains can be treated with a wet cloth and a mild soap or cleansing milk. Apply evenly with a damp soft white cloth wiping away any excess with a clean dry cloth. Blot stains from the edge toward the center of the stain, avoiding rubbing the surface. Never use abrasive or aggressive solvents, stain removers, show cleaning products, etc. Do not steam leather. Always test cleaning products on a concealed area.

END USE

Indoor/Outdoor, Commercial, Marine Application
